MEMORANDUM TO FILE

RE: Community Classification Variances for Health Facilities Projects

The Denali Commission recognizes that the July 2002 update to the Distressed/Non-distressed Community Classification list created variances for communities in the health facilities program.

The following communities and corresponding project numbers will **remain classified** (i.e. grandfathered) as **"distressed"** because they entered the health facilities conceptual planning process prior to the July 2002 update:
